OUTSTANDING CONCRETE ACHIEVEMENT AWARD
Presented to
R. Brook LLC for Raineybrook Subdivision Roundabout

INDIANAPOLIS - The Indiana Ready Mixed Concrete Association (IRMCA) presented the 2005 Outstanding Concrete Achievement Awards for projects in the State of Indiana on December 13, 2005 at the Indianapolis Downtown Marriott.

In the category of **Concrete Infrastructure Projects, County Roads**, one of the winning projects was the Raineybrook Subdivision Roundabout located in the Lafayette area. Recipients included the following individuals and/or organizations: R. Brook LLC, TBird Design Services Corporation, R. W. Davis Contracting and Irving Materials, Inc.

This project is a reconstructed entry to a subdivision. The roundabout design uses decorated concrete with about 320 yards of regular concrete and 80 yards of colored concrete for a total of 400 cubic yards of concrete. This innovative roundabout design replaces a T-Road stop and has no stop signs.

IRMCA presents these awards to recognize extensive application or imaginative use of concrete; and to honor the accomplishments of project owners, architects, engineers, contractors, owners and ready mixed concrete producers.
